Summary

I have 5 years Plus Experience as a Senior Frontend Developer. I have many frontend projects using the **ReactJS, NextJS** languages, some of the projects were [Starbuck Vietnam](#), [Starbuck Thai](#), [Starbuck Cambodia](#), and [Today Ogilvy](#). I have experience for backend languages that is Nodejs, ExpressJS also. And the following, I really like learning new technologies and ever try to write more valuable code that is why I always research and upgrade my own tune. And , any other self-project is shown on the lowest page.

SKILLS

Technologies

For Frontend

ReactJS, NextJS, VueJS, Javascript, Typescript, Redux, Zustand, Bootstrap, Tailwind, EmotionJS, Styled, Cypress, Jest

For Backend

Git, Bitbucket, Jira

Skill and Experiences

Clickr Media Co.LTD(Equatorial Marine Fuel)

From Feb 2023 to March 2024

Role - Senior Fullstack Developer

Technologies - NextJS, ExpressJS,Symfony,Mysql,Mongodb,Docker,Socketio,Git,Gitlab

Responsibilities -

- Front End Development, Email Notifications, Restful API developments,
- Weekly Deployments.
- Authentication and Authorization For multiple role users.
- Do Documentation for juniors.
- Guiding and Mentoring Junior Developers.

Project Summary -

Implement an Equatorial marine fuel service's project based in Singapore. We validate and do some logical thinking like – what the ship uses, which fuel and how many tanks they want to fill, how much time they stay on seashore and many other things. We synced the data from the business central site to other ship companies.

Idea Offshore Co,LTD

From Nov 2022 to Jan 2023

Role - Senior Fullstack Developer

Technologies - NextJS, ExpressJS,Mysql,Git,Gitlab

Responsibilities -

- Front End Development, Email Notifications, Restful API developments,
- Weekly Deployments.
- Authentication and Authorization For multiple role users.
- Guiding and Mentoring Junior Developers.

Summary -

Made Loan Bank Card system using Nextjs and Backend use Express. The process is like – we have three dashboards that are **admin perspective**, **shop perspective** and **card owner perspective**. For the admin panel- they can create and manage shop and card owner pages. For the shop perspective – the shop can transfer or receive payment for their customer and card owner can see their card transaction history. These explanations are overall. In reality there are a lot of calculations.

YC Fitness Co.LTD

From Aug 2023 to Mar 2024

Role - Senior Frontend Developer

Technologies - ReactJS,Socket.io,Tailwind,Git

Responsibilities -

- Front End Development
- Weekly Deployments.

Summary -

Used **React** to write a **Gym Fitness** site. In there, the system included upgrading the member plan process, hiring trainer process, profile process, chatting process and a lot more. I made it responsive for all devices.

Innovix Solution Co,LTD

From May 2021 to Nov 2022

Role - Senior Frontend Developer

Technologies - ReactJS,NextJS,PUG,GULP,Bootstrap,Tailwind

Responsibilities -

- Front End Development
- Weekly Deployments.

Summary -

Using **ReactJs** as a language and in this project, I do sign in,sign up and any other business flow including **Loyalty Program** after that filling shipping process and checkout process and also connecting to **Payment Online** Method. All in all, in this project my responsibilities are like 90% for the frontend.

The Ninth Art Technology Co,LTD
